Program Test Authority

Dear Applicant:

This letter is in reference to KLSF's request for program test authority ("PTA") filed March 16, 2011, and the above-captioned application for license to cover construction permit BNPED-20071018AEB, as last modified by construction permit BMPED-20101230ABZ. The PTA application included exhibits demonstrating compliance with the special operating conditions.

A review of KLSF's request for PTA reveals that the facilities were constructed pursuant to the terms and conditions of construction permit BMPED-20101230ABZ, and the provisions of 47 C.F.R. § 73.1620. Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on KLSF's license application.<sup>1</sup> The effective radiated power is 1.70 kilowatts (H&V) and the transmitter power output is 2.20 kilowatts.

Sincerely,

Rodolfo F. Bonacci
